Icebergs of Antarctica

EXPLORE THE LAST CONTINENT

Worldwide Experiences | Antarctica

Cruising Antarctica is something that can hardly be put into words. Explore this continent from the air via helicopter off the back deck or heli-ski on mountains untouched by humans. Perhaps you'd like to dive to the depths of the ocean in your onboard submarine to see the rarest of animal life - all of this is possible and so much more with polar explorers taking you through this ever-amazing adventure.

BACKGROUND

Antarctica is the southmost continent of the Earth - and the only continent untouched by COVID-19! It contains the South Pole and is found in the Antarctic region of our Southern Hemisphere, enveloped by the Southern Ocean containing beautiful and breath-taking iceberg natural sculptures. It is the coldest, windiest and driest continent on Earth, mostly comprised of the vast and beautiful Polar desert.
